INDEPENDENT AUDITOR'S REPORT

Honorable Board of Education
Morgan County School District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Morgan County School District, as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Morgan County School District's, management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Morgan County School District, as of June 30, 2005, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2005, on our consideration of Morgan County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 3 through 10 and page 17, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Honorable Board of Education
Morgan County School District

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Morgan County School District's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of Morgan County School District. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Wood Richards & Associates

November 11, 2005

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of the Morgan County School District (District), we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the fiscal year ended June 30, 2005. We encourage readers to consider the information presented here, in conjunction with additional information that we have furnished.

Financial Highlights

- During this past fiscal year, the District completed construction and payment on a new running track at Morgan High School. Total additions to capital assets (sites, improvements, buildings, equipment, and vehicles) were \$210,829 for the year.
- The District's total net assets increased by \$934,744. This increase was due mainly to a \$579,545 net decrease in long-term liabilities, and a \$511,705 increase in unrestricted net assets, mostly due to the positive variances of expenditures in the general fund and higher than expected tax receipts.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the assets and liabilities of the District, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the net assets of the District changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 11 through 12 of this report.

Fund financial statements – A *fund* is a group of related accounts that is used to maintain control over resources that are segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds – *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, and the capital projects fund, each of which are considered to be major funds. Individual fund data for the debt service fund and the capital projects fund is provided in the form of *individual fund schedules* found on pages 37 through 38 of this report. Data from five governmental funds (special revenue funds) are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of *combining and individual fund statements and schedules* found on pages 30 through 36 of this report.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement is provided, on page 17, for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 13 through 17 of this report.

Notes to the basic financial statements – The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 18 through 29 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$8.2 million at the close of the most recent fiscal year.

Morgan County School District's Net Assets

	Governmental activities		Increase (decrease) from Fiscal 2004
	2005	2004	
Current and other assets	\$ 3,501,451	\$ 2,996,752	\$ 504,699
Capital assets	11,143,256	11,292,756	(149,500)
Total assets	14,644,707	14,289,508	355,199
Other liabilities	933,871	963,176	(29,305)
Long-term liabilities outstanding	5,464,156	6,014,396	(550,240)
Total liabilities	6,398,027	6,977,572	(579,545)
Net assets:			
Invested in capital assets, net of related debt	5,679,100	5,299,618	379,482
Restricted	924,064	880,507	43,557
Unrestricted	1,643,516	1,131,811	511,705
Total net assets	\$ 8,246,680	\$ 7,311,936	\$ 934,744

The largest portion of the District's net assets (69 percent) reflects its investment in capital assets (e.g., sites, site improvements, buildings, equipment, and vehicles, net of accumulated depreciation), less any related debt (general obligation bonds payable and obligations under capital leases less unspent bond proceeds) used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net assets (11 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of the District's net assets is in unrestricted net assets (20 percent). Unrestricted net assets may be used to meet the District's ongoing obligations to students, employees, vendors, and to honor next year's budget.

At the end of the current fiscal year, the District is able to report positive balances in all three categories of net assets, both for the District as a whole, as well as for its separate governmental activities. The same situation held true for the prior fiscal year.

Morgan County School District's Changes in Net Assets

	Governmental Activities		Increase (decrease) from Fiscal 2004
	2005	2004	
Revenues:			
Program revenues:			
Charges for services	\$ 1,014,093	\$ 745,211	\$ 268,882
Operating grants and contributions	4,034,922	2,999,350	1,035,572
Capital grants and contributions	-	-	-
General revenues:			
Property taxes	3,353,305	3,394,047	(40,742)
Federal and state revenue not restricted to specific purposes	3,658,178	4,294,492	(636,314)
Interest	52,443	29,105	23,338
Miscellaneous	119,344	440,556	(321,212)
Total revenues	12,232,285	11,902,761	329,524
Expenses:			
Instruction	6,393,523	6,550,580	(157,057)
Supporting services:			
Students	308,171	247,104	61,067
Instructional staff	184,455	207,360	(22,905)
General district administration	493,568	476,120	17,448
School administration	683,077	687,862	(4,785)
Accounting and purchasing	163,802	157,114	6,688
Operation and maintenance of school buildings	1,006,058	991,438	14,620
Student transportation	540,595	561,017	(20,422)
Student activities	661,936	-	661,936
Other	117,899	346,838	(228,939)
Nutrition services	523,017	509,153	13,864
Interest on long-term liabilities	221,440	219,077	2,363
Total expenses	11,297,541	10,953,663	343,878
Increase in net assets	934,744	949,098	(14,354)
Net assets - beginning	7,311,936	6,463,470	848,466
Prior period adjustment (Note #12)	-	(100,632)	100,632
Net assets - ending	\$ 8,246,680	\$ 7,311,936	\$ 934,744

Governmental activities – The key elements of the increase of the District's net assets for the year ended June 30, 2005, are as follows:

- The largest dollar decrease in revenues came from a change in the reporting procedure for student activity funds now shown in 'charges for services' and the re-allocation of some funding sources from non-restricted to restricted. Interest revenue saw an increase due to better interest rates and higher cash balances invested.
- Expenses remained fairly consistent with the prior year with the exception of operation and maintenance of buildings and instruction expense. Operation and maintenance of school building expense increased due to increasing energy costs. However, instruction expense decreased due to a reduction in instructional staff positions. The new category of 'student activities' was added to account for the funds generated by student groups within the district engaged in activities associated with student life. In the past, part of their expenditures have been shown in the 'other' category, but will now be broken out in their own line item.

Revenues by Source - Governmental Activities

Expenses by Function - Governmental Activities

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. At June 30, 2005, the District's governmental funds reported a combined fund balance of \$2,567,580, \$534,004 higher than the previous year. Included in this year's change in the combined fund balance is an increase in the capital projects fund balance of \$268,342. In addition, the following changes in revenues and expenditures should be noted:

- State aid increased by \$431,960 or 6.5 percent, primarily resulting from increases to the WPU funding and one time allocations.
- Expenditures for the general fund totaled \$9,000,309, an increase of 0.7 percent during the current fiscal year. Instruction represents 73.2 percent of general fund expenditures.
- General fund salaries totaled \$5,604,489 million while the associated fringe benefits of retirement, social security, unemployment, industrial insurance, and health and accident insurance added \$2,200,282 to arrive at 84.8 percent of total general fund expenditures.

Governmental funds report the differences between their assets and liabilities as fund balance, which is divided into reserved and unreserved portions. Reservations indicate the portion of the District's fund balances that are not available for appropriation. The unreserved fund balance is, in turn, subdivided between designated and undesignated portions. Designations reflect the District's self-imposed limitation on the use of otherwise available expendable financial resources in governmental funds. Undesignated balances in the general fund are required by state law to be appropriated in the following year's budget. Fund balances of debt service, capital projects, and other governmental funds are restricted by state law to be spent for the purpose of the fund and are not available for spending at the District's discretion. At June 30, 2005, the District's governmental funds reported \$924,064 in reserved fund balance, and \$1,643,516 in undesignated, unreserved fund balance.

General Fund Budgetary Highlights

Final budgeted revenues exceeded original budgetary estimates by \$284,882 to account for anticipated increases in federal and state revenue.

Actual expenditures were increased to reflect additional costs in student transportation and the pay back of taxes previously collected to Holcim and Sinclair, Inc.

Designations of fund balance are also budgeted each year. Designated fund balances consist of a reserve for student activities, designation for restricted programs, and undistributed reserves. Under Utah State law, school districts are allowed to designate up to five percent of the general fund's budget for contingencies and emergencies. The law calls this designation the Undistributed Reserve.

Capital Asset and Debt Administration

Capital Assets – The capital projects fund is used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District. Total additions to capital assets (sites, improvements, buildings, equipment, and vehicles) were \$210,829 for the year.

Capital assets at June 30, 2005 and 2004, are outlined below:

Morgan County School District's Capital Assets (Net of accumulated depreciation)

	Governmental Activities		Change
	2005	2004	
Land	\$ 523,396	\$ 523,396	\$ -
Buildings and improvements	10,013,518	10,259,598	(246,080)
Equipment	606,342	509,762	96,580
Total capital assets	<u>\$ 11,143,256</u>	<u>\$ 11,292,756</u>	<u>\$ (149,500)</u>

Additional information on the District's capital assets can be found in Note 4 to the basic financial statements.

Debt Administration – On March 3, 1998, the District issued \$3,505,000 in general obligation refunding bonds (Series 1998) with a fifteen-year maturity. These bonds were issued under the Utah School Bond Guarantee Program and were rated "Aaa" by Standard and Poors. The original general obligation bonds were issued in 1992 in the amount of \$5 million to build the Morgan Middle School. As of June 30, 2005, the District has an outstanding principal balance of \$2,825,000.

The general obligation bonded debt of the District is limited by state law to four percent of the fair market value of the total taxable property in the District. The legal debt limit at June 30, 2005, is \$32.6 million. General obligation debt at June 30, 2005, is \$2.8 million, resulting in a legal debt margin of \$29.8 million.

Morgan County School District's Outstanding General Obligation Debt

	Governmental activities		Change
	2005	2004	
General obligation bonds	<u>\$ 2,825,000</u>	<u>\$ 3,115,000</u>	<u>\$ (290,000)</u>

Additional information on the District's long-term debt can be found in Note 6 to the basic financial statements.

Requests for Information

This financial report is designed to provide a general overview of Morgan County School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Business Administrator, Morgan County School District, 240 East Young Street, Morgan, Utah 84050.

A vertical dashed line runs down the left side of the page, consisting of a series of short, thick black horizontal bars separated by gaps.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET ASSETS
JUNE 30, 2005**

Total fund balance - governmental funds **\$ 2,567,580**

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore are not reported in the funds.

Those assets consist of:

Land	523,396	
Buildings, net of accumulated depreciation	10,013,518	
Equipment, net of 4,406,345 accumulated depreciation	<u>606,342</u>	11,143,256

Long-term liabilities that pertain to governmental funds, including bonds payable, are not due and payable in the current period and therefore are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net assets.

Balances at year end are:

Bonds payable	(2,825,000)	
Lease/purchase agreement	(2,631,057)	
Compensated absences	<u>(8,099)</u>	<u>(5,464,156)</u>

Total net assets - governmental activities **\$ 8,246,680**

See accompanying notes to the financial statements

See accompanying notes to the financial statements

**MORGAN COUNTY SCHOOL DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN
FUND BALANCES OF GOVERNMENT FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2005**

Net change in fund balances-total governmental funds **\$ 534,003**

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current year:

Capital outlays	210,829	
Depreciation expense	(360,328)	(149,499)

Fixed assets acquired by capital leases are shown as an expenditure and other financing source in the governmental funds. Equipment financed by the lease is less than the District's capitalization threshold; the District has elected to expense the equipment. The other financing source must be removed from the statement of activities; principal payments are applied to the lease liability; interest expense is recognized as it accrues.

Principal payments of capital leases	247,081
---	----------------

The governmental funds report bond proceeds as an other financing source, while repayment of bond principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:

Repayment of bond principal	290,000
Payments of compensated absences	13,159

Change in net assets of governmental activities	\$ 934,744
--	-------------------

See accompanying notes to the financial statements

See accompanying notes to the financial statements

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

1. Summary of Significant Accounting Policies

This summary of significant accounting policies of Morgan County School District is presented to assist in understanding the District's financial statements. The financial statements and notes are representations of the District's management, which is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles, as applicable to governmental units.

Organization

Morgan County School District (District) operates under a board/superintendent form of government and provides public education to the residents of Morgan County, Utah.

Reporting Entity

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). The basic - but not the only - criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of this ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application for this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, the District has no component units.

Government-wide and fund financial statements

The *government-wide financial statements* (the statement of net assets and the statement of changes in net assets) display information about the primary government. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to a particular function. Depreciation expense for capital assets that can specifically be identified with a function are included in its direct expenses. Depreciation expense for "shared" capital assets (for example, a school building is used primarily for instructional, school administration, operation and maintenance of facilities, and school lunch services) are ratably included in the direct expenses of the appropriate functions. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Interest on general long-term liabilities is considered an indirect expense and is reported in the statement of activities as a separate line item.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

1. Summary of Significant Accounting Policies (continued)

Program revenues include 1) fees and charges paid by students and other recipients of goods or services offered by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

The *fund financial statements* provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- The *Maintenance and Operation Fund* is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the Maintenance and Operation Fund.
- The *Debt Service Fund* is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.
- The *Capital Projects Fund* is used to account for all resources for the acquisition or construction of capital facilities by the District.

Measurement focus, basis of accounting, and financial statement presentation

The *government-wide financial statements* are reported using the economic resources measurement focus. The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District receives value without directly giving equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when the District receives cash. Expenditures generally are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, early retirement and post-employment healthcare benefits, arbitrage rebates, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

1. Summary of Significant Accounting Policies (continued)

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

Budgetary Data

Budgets are presented on the modified accrual basis of accounting for all governmental funds. All annual appropriations lapse at fiscal year-end with the exception of those indicated as a fund balance reserve. Budgets are adopted on a basis consistent with generally accepted accounting principles. The following procedures are used in establishing the budgetary data reflected in the financial statements.

- During May of each year, the District superintendent submits to the Board a proposed operating budget for the next fiscal year commencing July 1st. This budget includes proposed expenditures and the means of financing them. Included also is a final budget for the current year ending June 30th.
- Copies of the proposed budget are made available for public inspection and review by the patrons of the District.
- If the District does not exceed the certified tax rate, a public hearing is held prior to June 22 at which the budget is legally adopted by resolution of the Board after obtaining taxpayer input. If the District exceeds the certified tax rate, the budget is adopted in August when data is available to set the rates.
- Once adopted, the budget can be amended by subsequent Board action. The Board upon recommendation of the superintendent can approve reductions in appropriations, but increases in appropriations by fund require a public hearing prior to amending the budget. In accordance with Utah state law, interim adjustments may be made by administrative transfer of money from one appropriation to another within any given fund.
- Certain interim adjustments in estimated revenue and expenditures during the year ended June 30, 2005, have been included in the final budget approved by the Board, as presented in the financial statements.
- Expenditures may not legally exceed budgeted appropriations at the fund level.

Deposits and Investments

The cash balance of substantially all funds are pooled and invested by the District for the purpose of increasing earnings through investment activities and providing efficient management of temporary investments. The District's investments are reported at fair value at year-end. The Utah Public Treasurers' Investment Fund operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares. Changes in the fair value of investments are recorded as investment earnings. Earnings on pooled funds are apportioned and paid or credited to the funds based on the average balance of each participating fund.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

1. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

The District considers cash and cash equivalents in proprietary funds to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition, including investments in the Public Treasurers' Investment Fund (PTIF).

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at year-end are referred to as either "due to/from other funds" (i.e., current portion of inter-fund loans) or "advances from/to other funds" (i.e., the non-current portion of inter-fund loans).

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Inventories

USDA commodity products have been valued in the financial statements at fair market value. When the commodities are used they are included in the school food service fund as a cost of food sold and as revenue from federal programs.

Purchased food inventory is reported as an expenditure when the inventory is consumed. Such inventory is valued using the first-in, first-out cost method.

Capital Assets

Capital assets, which include land, water stock, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 for land, water stock, and furniture and equipment and \$100,000 for buildings and improvements and an estimated useful life in excess of two years. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extended assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

1. Summary of Significant Accounting Policies (continued)

Buildings and improvements and furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building improvements and portable classrooms	20
Buses	10
Musical instruments	10
Furniture	10
Office equipment	10
Vehicles	10
Computer equipment	5

Compensated Absences

Under terms of association agreements, twelve-month or full-year employees earn vacation and sick leave in amounts varying with tenure and classification. In the event of termination or death, an employee is reimbursed for accumulated vacation days to a maximum of 20 days. No reimbursement or accrual is made for unused sick leave.

All vacation pay plus related payroll taxes is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. While discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Equity

Fund Financial Statements

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a restricted purpose. Designations of fund balance represent tentative plans for future use of financial resources that are subject to change.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

1. Summary of Significant Accounting Policies (continued)

Government-wide Financial Statements:

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

When an expenditure is incurred for purposes for which both restricted and unrestricted resources are available, the District generally uses the restricted resources first, then unrestricted resources.

2. Deposits and Investments

The District maintains a cash and investment pool that is available for use by all funds. Cash includes amounts in demand deposits as well as time deposits. Investments are stated at cost or amortized cost, which approximates fair value. Each fund's portion of this pool is displayed as "Cash and Cash Equivalents" which also includes cash accounts that are separately held by some of the District's funds. Deposits are not collateralized nor are they required to be by State statute.

The District follows the requirements of the Utah Money Management Act (*Utah Code*, Section 51, Chapter 7) in handling its depository and investment transactions. This Act requires the depositing of District funds in a "qualified depository". The Act defines a "qualified depository" as any financial institution whose deposits are insured by an agency of the Federal government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council.

Deposits

Custodial credit risk – Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk. As of June 30, 2005, \$180,780 of the District's bank balances of \$280,780 was uninsured and uncollateralized.

Investments

The Money Management Act defines the types of securities authorized as appropriate investments for the District and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

2. Deposits and Investments (continued)

Statutes authorize the District to invest in negotiable or nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations, one of which must be Moody's Investors Services or Standard & Poor's; bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; bonds, notes and other evidence of indebtedness of political subdivision of the State; fixed rate corporate obligations and variable rate securities rated "A" or higher, or the equivalent of "A" or higher, by two nationally recognized statistical rating organizations; shares or certificates in a money market mutual fund as defined in the Act; and the Utah State Public Treasurer's Investment Fund (PTIF).

The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Money Management Act, Section 51-7, *Utah Code Annotated, 1953*, as amended. The Act established the Money Management Council which oversees the activities of the State Treasurer and the PTIF and details the types of authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The PTIF operates and reports to participants on an amortized cost basis. The income, gains and losses – net of administration fees, of the PTIF are allocated based upon the participant's average daily balance. The fair value of the PTIF Investment pool is approximately equal to the value of the pool shares.

As of June 30, 2005, the District had the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in Years)				Quality Ratings
		Less than 1	1-5	6-10	More than 10	
PTIF Investments	1,760,221	1,760,221	-	-	-	not rated
Certificates of Deposit	785,054	785,054	-	-	-	not rated
	<u>2,545,275</u>	<u>2,545,275</u>	<u>-</u>	<u>-</u>	<u>-</u>	

Interest rate risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair value by investing mainly in the Utah Public Treasurers Investment Fund and by adhering to the Money Management Act. The Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. The Act further limits the remaining term to maturity of commercial paper to 270 days or less and fixed rate negotiable deposits and corporate obligations to 365 days or less. Maturities of the District's investments are noted in the previous table.

Credit risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's policy for reducing its exposure to credit risk is to comply with the State's Money Management Act as previously discussed.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

2. Deposits and Investments (continued)

Concentration of credit risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District's policy for reducing this risk of loss is to comply with the Rules of the Money Management Council. Rule 17 of the Money Management Council limits investments in a single issuer of commercial paper and corporate obligations to 5-10% depending upon the total dollar held in the portfolio. The District's investment in the Utah Public Treasurer's Investment Fund has no concentration of credit risk.

Custodial credit risk (investments) – For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a formal policy for custodial credit risk. The District's investment in the Utah Public Treasurer's Investment Fund has no custodial credit risk.

Components of cash and investments (including interest earning deposits) at June 30, 2005, are as follows:

Cash on hand and on deposit:	
Cash on deposit	280,780
PTIF investment	1,760,221
Certificates of deposit	<u>785,054</u>
 Total cash and investments	 <u><u>\$ 2,826,055</u></u>

Cash and investments are included in the accompanying combined statement of net assets as follows:

Cash and investments	<u>\$ 2,826,055</u>
 Total cash and investments	 <u><u>\$ 2,826,055</u></u>

3. Accounts Receivable

The property tax revenue of the District is collected and distributed by the Morgan County Treasurer as an agent of the District. Utah statutes establish the process by which taxes are levied and collected. The county assessor is required to assess real property as of January 1 and complete the tax rolls by May 15. By July 21, the county auditor is to mail assessed value and tax notices to property owners. A taxpayer may then petition the County Board of Equalization between August 1 and August 15 for a revision of the assessed value. The county auditor makes approved changes in assessed value by November 1 and on this same date the county auditor is to deliver the completed assessment rolls to the county treasurer.

Tax notices are mailed with a due date of November 30. Delinquent taxes are subject to a 2% penalty, with a \$10 minimum penalty. If delinquent taxes and penalties are not paid by January 15 of the following year, these delinquent taxes, including penalties, are subject to an interest charge at an annual rate equal to the federal discount rate plus 6%; the interest period is from January 1 until date paid.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

3. Accounts Receivable (continued)

As of June 30, 2005, property taxes receivable by the District includes uncollected taxes assessed as of January 1, 2005 or earlier. It is expected that all assessed taxes (including delinquencies plus accrued interest and penalties) will be collected within a five-year period, after which time the county treasurer may force sale of property to collect the delinquent portion.

The receivables as of June 30, 2005, including the applicable allowances for uncollectible accounts, are as follows:

	<u>Maint. & Operation</u>	<u>Debt Service</u>	<u>Capital Projects</u>	<u>Food Service</u>	<u>Non K-12</u>	<u>Total</u>
Receivables:

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

4. Capital Assets (continued)

For the year ended June 30, 2005, depreciation expense was charged to functions of the District as follows:

Governmental Activities:

Student Transportation	75,911
Operation and Maintenance	19,944
Students	11,887
Instructional Services	230,306
School Administration	14,962
Food Services	7,318
	<hr/>
Total Depreciation Expense	<u>\$ 360,328</u>

5. Accrued Wages Payable

Wages payable result from unpaid employee service at the balance sheet date. This amount arises from teacher contracts which spread payments for nine months of service over a twelve month period. At year end the balance for accrued wages payable was \$928,999.

6. Long-term Liabilities

Long-term liability activity for the year ended June 30, 2005 is as follows:

	Balance July 1, 2004	Additions	Reductions	Balance June 30, 2005	Amounts Due Within One Year
Governmental Activities:					
Zions Bank Lease/Purchase Agreement	\$2,878,138	\$ -	\$ (247,081)	\$2,631,057	\$ 194,293
Series 1998 General Obligation Refunding Bonds	3,115,000	-	(290,000)	2,825,000	300,000
Total Debt	5,993,138	-	(537,081)	5,456,057	494,293
Compensated Absences	21,258	-	(13,159)	8,099	-
Total Governmental Activities	<u>\$6,014,396</u>	<u>\$ -</u>	<u>\$ (550,240)</u>	<u>\$5,464,156</u>	<u>\$ 494,293</u>

During the year the District charged \$221,440 to expense and did not capitalize any interest.

Series 1998 General Obligation Refunding Bonds

The District has \$2,825,000 in general obligation bonds outstanding, with an average interest rate of 5.7%. Repayment will be due in years 2000 through 2013 and will be financed from the proceeds of property taxes. The principal paid during the year ended June 30, 2005 was \$290,000.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

6. Long-term Liabilities (continued)

The debt maturities of the bonds are as follows:

<u>For the Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total Debt Service</u>
2006	\$ 300,000	\$ 116,698	\$ 416,698
2007	315,000	104,011	419,011
2008	330,000	90,545	420,545
2009	345,000	76,284	421,284
2010	360,000	61,123	421,123
2011-2013	1,175,000	82,111	1,257,111
Total	<u>\$ 2,825,000</u>	<u>\$ 530,772</u>	<u>\$ 3,355,772</u>

Zions Bank Lease/Purchase Agreement

On March 8, 2000, the Board approved a 3.5 million lease/purchase agreement with Zions Bank. These funds were used for various projects at the High School. The agreement calls for semi-annual payments of \$150,000 at 4.058%. The final payment is due June 30, 2016. The debt maturities of the lease agreement are as follows:

<u>For the Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total Debt Service</u>
2006	\$ 194,293	\$ 105,707	\$ 300,000
2007	202,325	97,675	300,000
2008	210,690	89,310	300,000
2009	219,401	80,599	300,000
2010	228,472	71,528	300,000
2011-2015	1,292,101	207,899	1,500,000
2016	283,775	16,225	300,000
Total	<u>\$ 2,631,057</u>	<u>\$ 668,943</u>	<u>\$ 3,300,000</u>

7. Insurance Coverage

Insurance coverage at June 30, 2005 is comprised of the following:

Blanket buildings and contents, including mercantile robbery and safe burglary	\$37,538,828
Liability	\$10,000,000
Bonding	\$ 1,000,000
Automobiles	Actual Value

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

8. Inter-fund Balances and Activity

During the year ended June 30, 2005, the capital projects fund transferred \$370,000 to the Maintenance and Operation Fund.

9. Reservations and Designations of Fund Balances

Undistributed Reserve - The State of Utah allows school districts to set aside up to 5% of their maintenance and operation fund budget in a working capital reserve (undistributed reserve). This reserve requires formal board action to establish or spend. The District has previously set aside \$185,000.

Student Activities - This reservation consists of the assets, specifically cash, held by the elementary, middle school, and high school. It is reserved for student activities only, which are determined by the schools and generally approved by the District.

Grant programs - This reservation consists of excess revenues over expenditures accumulated over the year which remain restricted for their intended purpose set by state categorical funding.

10. Pension and Deferred Compensation Arrangements

State and School - Cost Sharing

Plan Description. The Morgan County School District contributes to the State and School Noncontributory Retirement System, cost-sharing multiple-employer defined benefit pension plan administered by the Utah Retirement Systems (Systems). Utah Retirement Systems provides refunds, retirement benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries in accordance with retirement statutes.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953 as amended. The Utah State Retirement Office Act in Chapter 49 provides for the administration of the Utah Retirement Systems and Plans under the direction of the Utah State Retirement Board (Board) whose members are appointed by the Governor. The Systems issue a publicly available financial report that includes financial statements and required supplementary information for the State and School Contributory Retirement System and State and School Noncontributory Retirement System. A copy of the report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt lake City, UT 84102 or by calling 1-800-365-8772.

Funding Policy. In the State and School Noncontributory Retirement System the District is required to contribute 13.38% of their annual covered salary. The contribution rates are the actuarially determined rates. The contribution requirements of the Systems are authorized by statute and specified by the Board.

The District's contributions to the State and School Noncontributory Retirement System for June 30, 2005, 2004, and 2003 were \$659,652, \$608,992, and \$506,426 respectively. The contributions were equal to the required contributions for each year.

The District provides a 401(k) plan through which employees may make contributions. At year-end there were 99 participants in the plan. The District made matching contributions for the years ending June 30, 2005, 2004, and 2003 in the amounts of \$89,436, \$92,472, and \$86,582 respectively.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2005**

11. Grants

The District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the District's independent auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable fund. Based on prior experience, District administration believes such disallowance, if any, would be immaterial.

12. Change in Fund Structure

In 2005, the District reorganized its fund structure to simplify the management and understanding of its financial activities, which resulted in the elimination of the Enterprise Trust Fund. The Enterprise Trust fund balance was moved into the School Agency Fund. Other balances and transactions previously recorded in the Maintenance and Operation Fund have been moved to the School Agency Fund. The structure change had no effect on the government-wide financial statements.

**GOVERNMENT AUDITING STANDARDS,
OMB CIRCULAR A-133 AND OTHER REQUIRED REPORTS**

YEAR ENDED JUNE 30, 2005

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Honorable Board of Education
Morgan County School District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Morgan County School District, as of and for the year ended June 30, 2005, which collectively comprise Morgan County School District's basic financial statements and have issued our report thereon dated November 11, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Morgan County School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Morgan County School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Honorable Board of Education
Morgan County School District

Compliance

We have audited the compliance of Morgan County School District, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2005. Morgan County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Morgan County School District's management. Our responsibility is to express an opinion on Morgan County School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Morgan County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Morgan County School District's compliance with those requirements.

In our opinion, Morgan County School District, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005.

Internal Control Over Financial Reporting

The management of Morgan County School District, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Morgan County School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Morgan County School District, as of and for the year ended June 30, 2005, and have issued our report thereon dated November 11, 2005. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise Morgan County School District's, basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the audit committee, management, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**MORGAN COUNTY SCHOOL DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2005**

NOTE 1. PURPOSE OF THE SCHEDULE

The accompanying Schedule of Expenditures of Federal Awards (Schedule) is a supplementary schedule of Morgan County School District's general purpose financial statements and is presented for purposes of additional analysis. Because the Schedule presents only a select portion of the activities of Morgan County School District, it is not intended to and does not present either the financial position, changes in fund balances or the revenues or expenditures of Morgan County School District.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation – The information in the Schedule is presented in accordance with OMB Circular A-133.

Federal Awards – Pursuant to OMB Circular A-133, federal awards are defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance, or direct appropriations. Accordingly, non-monetary federal awards, including federal surplus property, is included in federal awards and, therefore, is reported on the Schedule. Federal awards do not include direct federal cash assistance to individuals. Solicited contracts between the State and Federal Government for which the Federal Government procures tangible goods or services are not considered to be federal awards.

Type A and Type B Programs – OMB Circular A-133 establish the levels of expenditures or expenses to be used in defining Type A and Type B federal awards programs. Type A program threshold in 2005 was \$300,000.

B. Reporting Entity – The reporting entity is fully described in the footnotes of the Morgan County School District's financial statements. The schedule includes all federal awards programs administered by the Morgan County School District for the year ended June 30, 2005.

C. Basis of Accounting – The expenditures in the Schedule are recognized as incurred based on the modified accrual basis of accounting and the cost accounting principles contained in OMB Circular A-87, *Cost Principles of State and Local Governments*. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement.

Auditee qualified as low-risk auditee?

X yes _____ no

**MORGAN COUNTY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2005**

Section II – Financial Statement Findings

This section identifies the reportable conditions, material weaknesses, and instances of noncompliance related to the financial statements that are required to be reported in accordance with paragraphs 5.18 through 5.20 of *Government Auditing Standards*.

There were no reportable conditions or material weaknesses noted during our audit. Accordingly, no such matters are reported.

Section III – Federal Award Findings and Questioned Costs

There were no federal award findings or questioned costs noted during our audit. Accordingly, no such matters are reported.

INDEPENDENT AUDITOR'S REPORT
STATE OF UTAH LEGAL COMPLIANCE

The Honorable Board of Education
Morgan County School District

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Morgan County School District, for the year ended June 30, 2005 and have issued our report thereon dated November 11, 2005. As part of our audit, we have audited Morgan County School District's compliance with the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; special tests and provisions applicable to each of its major State assistance programs as required by the State of Utah Legal Compliance Audit Guide for the year ended June 30, 2005. The District received the following major assistance programs from the State of Utah.

Minimum School Program

The District received the following nonmajor State grants which are not required to be audited for specific compliance requirements: (However, these programs were subject to testwork as part of the audit of Morgan County School District's financial statements).

Drivers Education

Our audit also included testwork on the District's compliance with those general compliance requirements identified in the State of Utah Legal Compliance Audit Guide, including:

- Public Debt
- Cash Management
- Purchasing Requirements
- Budgetary Compliance
- Truth in Taxation & Property
- Tax Limitations
- Other General Compliance Issues

The management of Morgan County School District is responsible for the District's compliance with all compliance requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

Independent Auditor's Report on State Legal Compliance
Page 2

The results of our audit procedures disclosed no instances of noncompliance with the requirements referred to above.

In our opinion, Morgan County School District, complied, in all material respects, with the general compliance requirements identified above and the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; and special tests and provisions that are applicable to each of its major State assistance programs for the year ended June 30, 2005.
